**LubriSynHA fortified with MSM is the best and fastest way to support healthy joint function.**

**Dr. Steven Allday**  
DVM Developer of LubriSynHA

Hyaluronic Acid is a naturally occurring component of joint fluid. It can only be supplemented by injection or oral absorption.

In studies, MSM (methylsulfonylmethane) has shown to relieve symptoms associated with osteoarthritis.

These vital elements have come together to create LubriSynHA+ for a natural, synergistic, anti-inflammatory effect.

# LubriSyn<sup>®</sup> | HA<sup>+</sup>

**EQUINE & PET**
